Research at the University of Michigan

Annual Report to the Regents

Stephen R. Forrest
Vice President for Research

January 18, 2007

1

Topics

- **Where we are:** Research numbers
- **Initiatives:** Michigan Memorial Phoenix Energy Institute
- **A significant challenge:** Partnerships with Industry

2

UM Total Research Expenditures (FY 1996-2006)

- Funding visibility into future unclear
- Expenditure outlook in FY 07 “guardedly optimistic”
- Long term prospects for growth are not above average

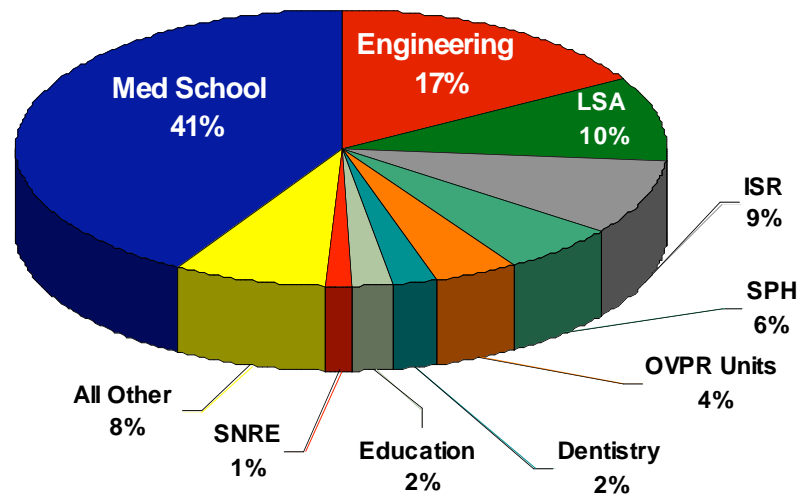

3

UM Research Expenditures, by Sponsor FY2006: \$796,965,386

4

UM Research Expenditures, by Unit FY2006: \$796,965,386

5

Snapshot of OVPR Accomplishments in 2006

- Launch of *Search & Discovery*
- Distinguished Innovator Award
- New policies for OTT approved
- New AVP for Social Sciences & Humanities
- Arts & Humanities Funding Group Established
- Instituted effort to manage HPC resources & growth
- Improved IRB Processes in Health & Behav. Sci.
- eResearch & grants.gov Transition

6

Michigan Memorial Phoenix Energy Institute

*Supporting and Growing
Research & Education for a
Clean, Affordable Energy Future*

7

Defining Energy Research at UM

- **Established strengths are the core of the Institute**
 - Automotive Engineering
 - Nuclear Engineering
 - Solar
 - Low power/solid state electronics
 - Hydrogen
- **Priority areas for growth and coordination**
 - Policy, economics and societal impact of the energy challenge
 - Carbon-free energy sources
 - Transportation systems and fuels
 - Energy storage
 - Energy utilization

8

Resources

- **Phoenix Memorial Lab Renovation**
 - \$11M from State and UM for facilities upgrade and partial renovation
 - 3rd floor for Hydrogen Energy Technology Lab (~\$2M)
- **Schools and Colleges**
 - Commitment for over 4 chaired positions from LSA & CoE
 - 4+ graduate fellowships from/to Rackham
- **Operating budget**

9

Status Highlights

- **Director** (Prof. Gary Was) and **Assoc. Director for Outreach** (James MacBain) appointed
- **Deans of COE, LSA, Public Policy, ISR engaged**
- “Nano-hire” merged with energy mission
- **Development** identifying prospects for support
- Several major **corporations** engaged
- **Partnership with MSU**
- **RFP for cross-disciplinary energy projects**
- **Energy Symposium & Internal Workshop**

10

Industry Partnerships: Why Universities Do It

– Academic Mission

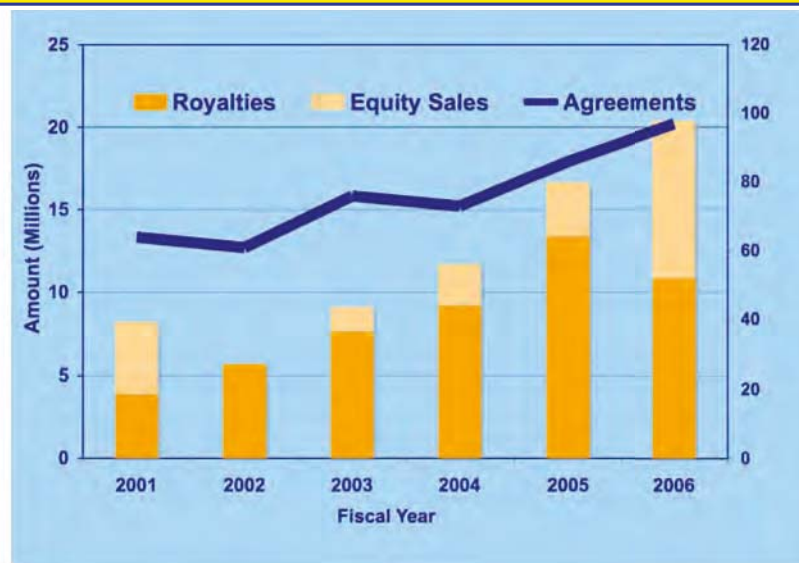

- Dissemination of knowledge to the public
- Test concepts and face challenges in the “real world”
- Encourage partnerships that promote student learning & employment opportunities

– Resources

- Create new jobs in a changing economy
- Supplement and enable federal research support
- Generate licensing income for research and education

11

U-M Tech Transfer Performance

We are doing well, but...

- Licensing income is not a clear indicator of success with industry partnerships
- To the extent that partnerships contribute, it is far-trailing indicator
- Agreements=Partnerships

12

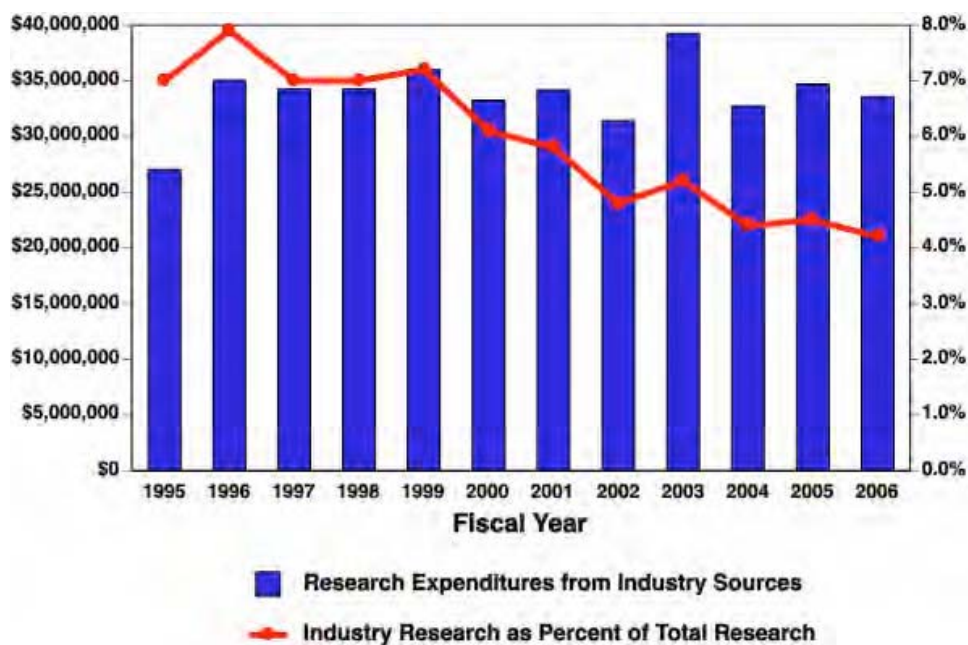

Recent BIG Events

- **Google** - selects Ann Arbor for new business center
- **NanoBio** - UM faculty spin-off receives \$30 M investment, one of largest biotech investments ever in Michigan
- **OncoMed** - company based on UM technology raises \$33 M in new investment
- Others are coming

13

UM Research Sponsored by Industry (FY1995-2006)

14

Challenges Exist to Improving Our Engagement with Industry

- **Culture** - No deep tradition of industrial research & tech transfer at UM
- **Location** - Lack of high population density, robust technical & funding infrastructure
- **Knowledge** – Limited understanding of how to engage with industry
- **Reputation** – Some view UM as unsupportive of engagement

15

ADVANCING INNOVATION

UM INDUSTRIAL RELATIONS, RESEARCH, AND TECHNOLOGY TRANSFER A PLAN FOR PROGRESS

- Faculty Advisory Committee
- Professional & Administrative Staff Group
 - Charged to formulate objectives, specific plans, metrics, and a path forward
- Consultation with committed external partners

16

Critical Elements of OVPR Proposal

- **Change the culture**
- Make long term strategic investments
- Experiment with solutions: be entrepreneurial
- Measure success
- Manage resources

17

Next Steps

- We must define the **Michigan Difference**
 - Determine what makes us unique
 - Determine the opportunity
 - Rise fully to the challenge
 - Success is not obtained by a single “silver bullet”, it is through getting multiple solutions to work in sync.

18

Thank You!

University of Michigan Research Expenditures By Sponsor (FY2005 & FY2006)

SOURCE	FY 2005	PERCENT OF TOTAL	FY 2006	PERCENT OF TOTAL	PERCENT CHANGE

University of Michigan Symposium

Energy Science, Technology and Policy

FACING THE CHALLENGE

The University of Michigan launched an energy research initiative in September 2006 with the establishment of the Michigan Memorial Phoenix Energy Institute. This symposium brings together many influential people from government, industry and academia to present their views on science, technology and policy topics in the energy field.

Organized by the Office of the Vice President for Research and the Michigan Memorial Phoenix Energy Institute.

Sponsored by

DTE Energy

8:00 AM - 4:30 PM, February 13-14, 2007
Horace H. Rackham Amphitheatre
915 E. Washington, Ann Arbor 48109-1070

KEYNOTE ADDRESS

Samuel W. Bodman
U.S. Secretary of Energy

Speakers Include:

- Dennis N. Assanis, University of Michigan • advanced powertrains
- Rosina M. Bierbaum, University of Michigan • climate change science & policy
- J. Christopher Brown, DTE Energy • addressing consumer needs
- Lawrence D. Burns, General Motors • transportation & sustainability
- John R. Dearborn, Dow Chemical • challenges for the chemical industry
- James J. Duderstadt, Univ. of Michigan • energy futures in the Great Lakes region
- Stephen R. Forrest, University of Michigan • advances in lighting
- Kenneth G. Keegstra, Michigan State University • future of biofuels
- Gregory A. Keoleian, University of Michigan • energy sustainability metrics
- Nathan S. Lewis, CalTech • sustainable energy technology
- Thomas P. Lyon, Univ. of Michigan • carbon constraints & energy investments
- William McDonough, Wm. McDonough & Partners • design for sustainability
- Ernest J. Moniz, Massachusetts Institute of Technology • nuclear options
- Margo T. Oge, Environmental Protection Agency • energy and pollution
- James E. Rogers, Duke Energy • fuel diversity for utilities
- Gerhart Schmidt, Ford Motor Company • environment & energy security
