6. With respect to research and scholarly productivity, would the candidate's work meet the requirements for someone being considered for promotion according to the University of Michigan Research Scientist criteria? If not, why?

***[The following paragraph (word-for-word) must be included in ALL letters soliciting an evaluation of the candidate.]***

***Questions sometimes arise about the confidentiality of external review letters, and we do want to advise you that your letter will be reviewed by senior faculty at the University of Michigan. Because the University is a public institution, legal considerations limit our ability to assure confidentiality but it is our practice not to release external review letters unless required to do so by law.***

We request that you return your review to us by [Date]. We would also appreciate it if you would provide us with a short biosketch, including a brief description of your areas of expertise and current research interests.

We realize that your schedule is full and that this may be a time-consuming task; however, we will be most grateful for your assistance. We have selected you because of your expertise in this area. Should you not respond, we will note this in the candidate's promotion record. If you need further information, please contact [Contact Name] at [Phone/Email].

Sincerely,
